MARTIN TO TEST TAX EXAM. LAW

Madison Candidate for County Commissioner Engages Attorney to See if It's Valid

A test is to be made of the state law requiring candidates for County Tax Commissioner to pass an examination from the State Tax Commission. Mr. Charles Martin, of Richmond, who failed to pass the examination, after he had announced his candidacy for Tax Commissioner, has engaged Attorney J. P. Chenault to bring a test suit and see if the law is valid. Mr. Chenault says that he understands a similar action is to be brought or perhaps has already been brought from Harrison county. In such an event he may consolidate his action with the other and then take the whole question before the Court of Appeals if necessary. Under the law which was enacted by the legislature which changed the taxation system of the state, no man is qualified to become a candidate for Commissioner who does not receive a certificate of proficiency from the State Tax Commission after examination.

HIGH LIGHTS OF THE CLASSICAL MEETING

Dr. Crossfield gave a hearty endorsement of the classics, declaring that they, especially Latin, should be retained as elective courses in High Schools and Colleges. He cited as an example of their practical value, his visit to Lloyd George, of England, during which he had been impressed with the fact that the great Premier had supplemented his education by a detailed study of the classics as a means to the attainment of his ambitions. This training he obtained with the aid of an aged uncle during spare moments. Following Dr. Crossfield's address, the Hon. George Colvin, Superintendent of Public Instruction, State of Kentucky, made a most vigorous address on "Why I Recommend the Study of Latin." He stated that as a teacher, Latin was his favorite subject and that he had secured better results from it than any other. Mr. Colvin further declared that he thought High School children incapable of wise election and he therefore recommended that Latin be a required subject in High Schools. Democracy, he said, was one idea achieved only through leadership.

COUNTY TEACHERS RESUME MEETINGS

(By Miss Myrtle Dalton) The county teachers' meeting which the county superintendents inaugurated last year, and which has become so very popular in this county, resumed their meetings this morning at 10 o'clock, after a lapse of four months while the schools of the county were closed for the winter months. The meeting was opened by County Supt. Edwards, with devotional exercises by Rev. McClintock, song service led by Miss Mollie Powell, after which the roll call showed about one-half of the teachers of the county present, manifesting much enthusiasm over their work for the spring term. The subject under discussion being the "Renewal of Certifications," and "Certification of Qualifications of the Teachers of the State" for this and the following two years. The five-week course was discussed pro and con; no final decision being made in regard to same. A round table discussion followed, closed by Prof. W. B. Elder, of Waco High School. The meeting was adjourned at 11:45, the next meeting to occur Saturday, April 30, at which meeting all teachers of the county are urged to be present as State Superintendent Colvin is expected to be present at this, the last meeting, until next school term. Welcoming A Son

Mr. and Mrs. Arch K. Francis are welcoming a fine son who has been christened Charles Kavanaugh Francis.

BIG CROP RAISED IN ILLINOIS SOLD HERE

Just before the close of the Richmond tobacco markets, several large hogheads of tobacco arrived at the Madison House from Clear Creek, Illinois. The crop containing 12,000 pounds was raised by E. W. Winkler who went to Illinois some time ago from Madison county. He put in a large crop, and despite the fact that he raised practically without rain, got it to the market in fair shape and realized from \$8 to \$9 a hundred pounds. Much of the weed had been poorly graded and badly packed or would have brought much higher figures, several tobacco men said. Mr. Winkler came through with his tobacco. He obtained the hogheads at Louisville, but didn't care to stop to sell his weed there but brought it on to Richmond, which he has noted, has been making just about the highest averages in the burley belt. Mr. Winkler was well satisfied with the price he obtained, under conditions. He was heartily congratulated upon his success with his trial crop up in a section which is supposed to be considerably out of the tobacco producing belt. Clear Creek, where his farm lies, is not far from Bloomington.

NO BLAME LAID FOR FARMER'S DEATH

(By Associated Press) Paducah, Ky., April 2.—A coroner's jury today returned a verdict of death from unknown causes in connection with the death of Joe Daniels, aged farmer, found in the Clark river last Sunday. The verdict was non-committal as to any person connected with his death. Attorneys for his son Van Daniels, held on a charge of murder, attended the inquest. Authorities announced that a deadly poison was revealed by the chemical analysis of the stomach of Daniels. A telegram has been received from a St. Louis laboratory telling of the finding of the poison, but officials have refused to give out the name of the poison pending receipt of a detailed report from the chemists. It is unofficially reported, however, that the poison was wood alcohol. Attorneys for Van Daniels expressed the opinion today that the presence of wood alcohol would aid them in the defense of their client.

Cow Brought In Clarence Moberly's Watch Lost In Field Last September

Clarence Moberly, who lives near Shearer, this county, noticed something peculiar in the cleft of a foot of one of his cows as she came in for milking on Thursday night. He made an examination and found that firmly wedged in the hoof was a gold watch he had lost last September. While sowing rye in a large field on September 5, last, Mr. Moberly's gold hunting case watch fell out of the watch pocket of his trousers. It was a valuable timepiece and he hated to lose it. He and his entire force of men spent an hour or so going over the field in a search for it, but were unable to find it. He gave it up for lost for good. On Thursday the rye was sufficiently high to turn the cows in, and that night one brought his chronometer home, wedged in her hoof. Outside of a broken crystal, the watch was entirely uninjured. Mr. Moberly wound it up and it appears to be keeping as good time as ever.

NORMAL AFTER REVENGE THIS YEAR

Will Try to Even Things up With Stanford Hi for Defeat of Last Season

On Monday afternoon, April 4, the Stanford High School baseball team opens the season for the Eastern Normal when they visit Richmond for their annual game. Men Bid Goodbye To

Silk Shirts; Don Cotton

Madras shirts are in again! Gone are the \$25 silk ones of a year ago. It is now possible to get a very good shirt for \$2 or \$3. The cotton materials are sure to go well, especially the highest grades. Fine madras, chambrays, poplins and percales are much worn.

Instead of the broad stripes of former years the tendency of this spring is toward pin and pencil stripes and small checks. The colors are more delicate and artistic in their combinations. Everything is conservative and conventional.

Flannel shirts will continue to be worn for sports. There are beautiful French and English cloths that are considered most smart.

Even though soft collars will retain their hold on popularity, there will be more stiff collars worn than has been for many years. The stiff collars are lower, therefore more wearable than formerly in hot weather.

Neckwear prices too have come within reach of the average pocketbook. Excellent qualities can be gotten for a dollar or two. Even the finest imported.

He was recognized by one of his master's friends who ordered a tug, placed Thor aboard and sped down the bay, overtaking the Oscar II several miles out. Thor was taken off a bit of North sea wreckage during the war, and since has been the pet of the Oscar II's skipper.

LEGION PUTS OVER KANSAS BOXING LAW

(By Associated Press)

Topeka, Kan., April 2.—Private clubs and organizations may hold boxing bouts in Kansas, by the grace of the 1921 legislature. In effect, the enactment repeals the stringent anti-boxing law which has been on the statute books for nearly forty years. It limits the boxers to amateurs, but provides that admission may be charged. Of the numerous attempts to repeal Kansas "blue laws" during the recent session of the legislature, passage of the boxing bill was the only one successful. The movement to legalize amateur boxing bouts was championed by the American Legion whose leader in this particular was the Rev. Earl Blackman, pastor of Christian church, Chanute, Kansas, who gained the title of "Fighting Chaplain" of the 35th division overseas through his prowess as a boxer, referee and ring enthusiast.

POVERTY MAY CLOSE COVINGTON SCHOOLS

(By Associated Press)

Covington, Ky., April 2.—Covington public schools will have to close if the Covington public school board cannot borrow \$100,000 by Monday was the announcement made today by Frank Michaels, a member of the finance committee.

"We will have a final conference with the Covington bank officials Monday," said Michaels. "If we do not succeed in borrowing \$100,000, the public schools of Covington will have to close. There is no question about this. We have no funds to run schools until June. We have put this matter up to the local bank officials and we will know definitely Monday whether these funds are to be forthcoming. If we cannot make the loan the schools will close immediately."

Bankers say that the board has borrowed up to the amounts permitted by law and that there is a grave question as to the right of the banks to advance further funds at this time.

Value to You of an Advertising Agency

You're in business. You're putting up a line of trademarked goods, we will say. You want to sell them.

You send out salesmen. They get distribution for you. Your goods are on the dealers' shelves.

Now you need advertising—to interest the consumer—to make Mrs. Smith or Mr. Jones ask for your goods by name—to say, for instance, "I want a can of BROWN'S Beans" instead of "I want a can of beans."

Two courses open to you: You either undertake to prepare and place your own advertising or you shove the whole job on an advertising agency.

If YOU undertake to do it, you first select your papers. Suppose you are going to use 100 papers. What papers? If you haven't a newspaper directory, you have to borrow or buy one. You write to the paper for rates.

After you've picked your papers, you write your ads, employ an artist to make drawings for the illustrations, employ an engraver to make original plates, employ an electrotypist to make duplicate plates, employ a printer to set the ads to secure uniform strong typographical displays; then you mail the proofs and plates to each paper with instructions when to insert; after that you have to search thru the papers to be sure the ads appeared, and if they did, you have to open accounts with 100 papers and mail 100 checks each month while the advertising is running.

You and your office force have done loads of tiresome work and worry that an advertising agency would have done without charge. Thru an advertising agency you pay exactly the rates you pay publishers direct. The agency gets its remuneration in the shape of a small commission from the publishers—a commission they are only too willing to pay because agency service saves them labor and expense.

An advertising agency prepares the ads and, after being OK'd by you, forwards them for insertion, checks up their appearance in the publications. All you have to do is to pay ONE bill to the agency each month.

Besides, the agency gives you, free, the benefit of its expert knowledge of merchandising methods. It analyses your business. It decides before accepting your account whether you are really ready to advertise.

The agency is your representative—just as much so as your salesman.

Most of the successful interstate and national advertising is placed thru advertising agencies.

The nine advertising agencies listed below comprise the Southern Council of the American Association of Advertising Agencies. Write to the agency you prefer and get the benefit of its advice, organization and equipment:

MOTHER GAVE IT

Virginia Lady Suffered With Aches and Pains Until Mother Began Giving Her Cardui.

Dublin, Va.—Miss Mary Alice Hughett residing on Route 2, near here, recently told a visitor of her interesting experience with Cardui. Miss Hughett said: "I had been suffering for some time with painful aches and pains, didn't feel like going. Would just drag around, and couldn't rest to do any good. I would suffer once a month with my back, sides and head. My limbs would ache and I didn't know what to do, but I knew I must do something, for I didn't get well by letting it run on."

"My mother is a believer in Cardui, for she saw what it did for others as well as herself, so she began giving it to me."

"It wasn't long before I saw a change. It was just what I needed. It regulated me. I began to eat and sleep, and the pain stopped."

"Cardui is without doubt the best female tonic made, and I am glad I can recommend it to others."

"If suffering with symptoms such as Miss Hughett mentions, or other ailments peculiar to women, why not begin Cardui at once? Its merit is well established by successful use for more than 40 years."

SHE TOOK HER FRIEND'S ADVICE

Now is in the Best of Health
Because she took Lydia E. Pinkham's Vegetable Compound

Detroit, Mich.—"I was not feeling well for several years and never was able to eat any breakfast and always complained of a headache or tired feeling which at times required me to stop my work and rest. I have never had a physician and never took any medicine for it until I was recommended to me by a neighbor whom I used to visit frequently. I took four bottles of Lydia E. Pinkham's Vegetable Compound, and now I am in the best of health and enjoy doing my work every moment of the day. It surely put life and 'pep' into my system."—Mrs. L. M. DARRAS, 46 Howard St., Detroit, Michigan.

It is not always in business that a woman is forced to give up her work on account of ill health. It is quite as often the woman who does her own work at home. When backaches and headaches drive out all ambition, when that bearing-down sensation attacks you, when you are nervous and blue, the one great help for such ailments is Lydia E. Pinkham's Vegetable Compound.

Zangar, world famous mystic, who comes to the Opera House for the entire week of April 11, will give a special performance for ladies only. No one under 16 years of age will be admitted to this performance. The ladies can ask personal and private questions that they could not or would not care to ask at the regular performances. The mystic guarantees to answer at least one question for each lady present either publicly or privately. The ladies are requested to write their questions at home and bring them to the theatre so that he can start to answer the questions as soon as possible. So husbands and sweethearts, beware!

Outfitted for Easter

HERE are two youthful followers of the mode outfitted for Easter—and afterward—with new suits, new hats and new footwear. As they are experts in the art of dressing tastefully and as each has made her selections different from the others, it is worth while to study the details of their quiet, springtime apparel for the street. Their suits are widely different, but equally good style, their hats agree only in being small, but in the matter of footwear each has chosen plain silk stockings and low shoes—to be worn with spats when the weather is cool.

The extremes of the box-coat style begin with the jacket at one end and end with the finger-length flaring model at the other. In the youthful, spring-like suit at the left of the picture, there is a short, loosely adjusted jacket with flaring sleeves, a plaited skirt, somewhat longer than the passing styles, and a sash of brightly striped ribbon finished with knot and tasseled at the ends. The hat of silk and cellophane braid has a narrow brim, and the shoes are plain kid pumps with baby French heels. The suit at the right is a dignified model, which might be worn by an older woman. Its coat has bands of crepe ribbon as a decoration on collar and skirt, which is quite full; it owns allegiance to the coat-sleeve and is one of the few models having a wide belt that definitely defines the waist line. The skirt is a little longer than the average and quite plain; the turban is of deep blue Batavia cloth and cellophane braid and the smart shoes of suede with strap over the instep and the fashionable baby French heel.

POSSE HOLDS THREE NEGROES IN FAYETTE

(By Associated Press)
Lexington, Ky., April 2.—Following a chase over a distance of two miles three negroes alleged to have attempted to break into the home of Webb Blevins, who lives at Walnut Hills station, were caught by a posse this morning and held at the point of shot-guns until Deputy Sheriff Andrew Bowman and Powell Bosworth arrived to take them in charge.

The trio gave the following names: George Taylor, Stonewall King and Bryant Fowler, and told the officers they escaped Thursday from the workhouse at Louisville.

According to Mr. Blevins, Taylor went to the Blevins' home about 9 o'clock and asked for something to eat. Mrs. Blevins slammed the door and locked it, calling to Mr. Blevins who was some distance from the house. The negro, it was said, indicated by his talk he intended to enter the house. As Mr. Blevins started toward the house Taylor fled closely pursued by Harold Blevins, who captured him after a mile chase.

The other two were on the railroad 300 or 400 yards distant and a posse started after them. Elwood Rogers, 729 Hambrick avenue, Lillard Mefford, merchant at Brighton, and others joined in the chase and the men were caught near Brighton, two miles distant from where the chase started.

RIVER AND CAVE FOUND UNDER PARIS

(By Associated Press)
Paris, Ky., April 2.—Boys digging for "buried treasure" in a vacant lot here yesterday discovered what is believed to be an underground river and a new cavern under Paris. It was learned today.

An effort is to be made this afternoon, by Charles Blythe, a former guide at Mammoth Cave to explore the cavern.

The discovery was made on a lot formerly occupied by the Ficklin building. The boys were digging a hole in the lot when the pick one, wielded disappeared. Peering in the boys heard the sound of running water. The edges of the hole, however, continued to cave, and they were forced to leave. A fence was built about the place today.

It has been known for years that there are many caverns under Paris, a number having been disclosed in excavations for homes. None have been explored.

SOMEBODY TELL REDS ABOUT THIS TWIRLER

(By Associated Press)
Ann Arbor, Mich., April 2.—Eighteen games won out of 19 pitched is the two-year record at University of Michigan by Vernon L. Parks, who resigned recently as captain of the Wolverine nine following discovery that he had pitched for the Portland club of the Pacific Coast league last year.

In both 1919 and 1920 Parks pitched the Michigan team to "Big Ten" championships. During the first season he won every game in which he played. In 1920 he lost the final game with Illinois, played after Michigan had clinched the title.

Parks pitched seven games in the 1919 season, six of them conference engagements. His batting average for that year was .269.

In 1920 he hurled 12 games, striking out 99 men during the season. His batting average last year was .244. In a single game last year he struck out 17 men and in another 16.

Parks plans to join the Detroit Americans for a tryout as soon as he is graduated in June.

Last of Millionaire Race Drivers Enters Classic

INDIANAPOLIS, IND.—Eddie Hearne, the last of the millionaire race drivers of a decade ago, is the first man to enter for the Ninth Annual 500-mile International Sweepstakes race, here, May 30. This gives him the coveted No. 1 to carry in the Indianapolis Speedway's classic, the world's greatest race of the year.

It is a coincidence that Hearne's trouble, he was still in the fight when should get the No. 1. For the last two years it has been obtained by R. Chas. Ford Durant, the California millionaire, who retired from racing at Elgin last summer. Durant was Hearne's patron in 1919 and backed him in his speed campaign.

Eddie is one of the few remaining all-around drivers for he has received the checkered flag in speedway and road races, hill climbs and reliability runs and countless dirt track events. Thirteen years ago when he reached the age of 21, Hearne broke into the game, which then boasted a number of millionaires and near-millionaire pilots. The glamour of the speed sport had attracted such men of wealth as W. K. Vanderbilt, Harry Harkness, Crocker, who was killed on the Florida sands, and many others. However, he broke in before Caleb Bragg, David Bruce-Brown, Spencer Wishart, Joe Boyer and Cliff Durant were names to conjure with in the racing sport. All followed him, all have lost their lives in competition or voluntarily retired.

Being a man of means, Hearne drove foreign cars in the majority of his early races, although he first gained fame when he finished fourth in the first Grand Prize at Savannah, in 1908, in the light-car class, piloting a Buick. Italian Flats and German Benz cars were his favorites and it was at their wheels that his star was at its zenith.

When the Indianapolis Speedway opened with its first race meet, twelve years ago next August, Hearne was still in the amateur ranks. With a Fiat car, he beat the pick of the "gentlemen racers," winning the national amateur championship trophy with a Fiat. In 1910 he turned pro and his record of getting money in seven starts that year on the speedway was unusual. He used a Benz car and registered five firsts, a second and a third. Included in this was two victories which gave him the Indianapolis Speedway helmet trophy.

In 1911, the first of the 500's, he drove a Fiat, and although he had more than his share of mechanical

THREE BIG SALES OF PURE BRED ANIMALS

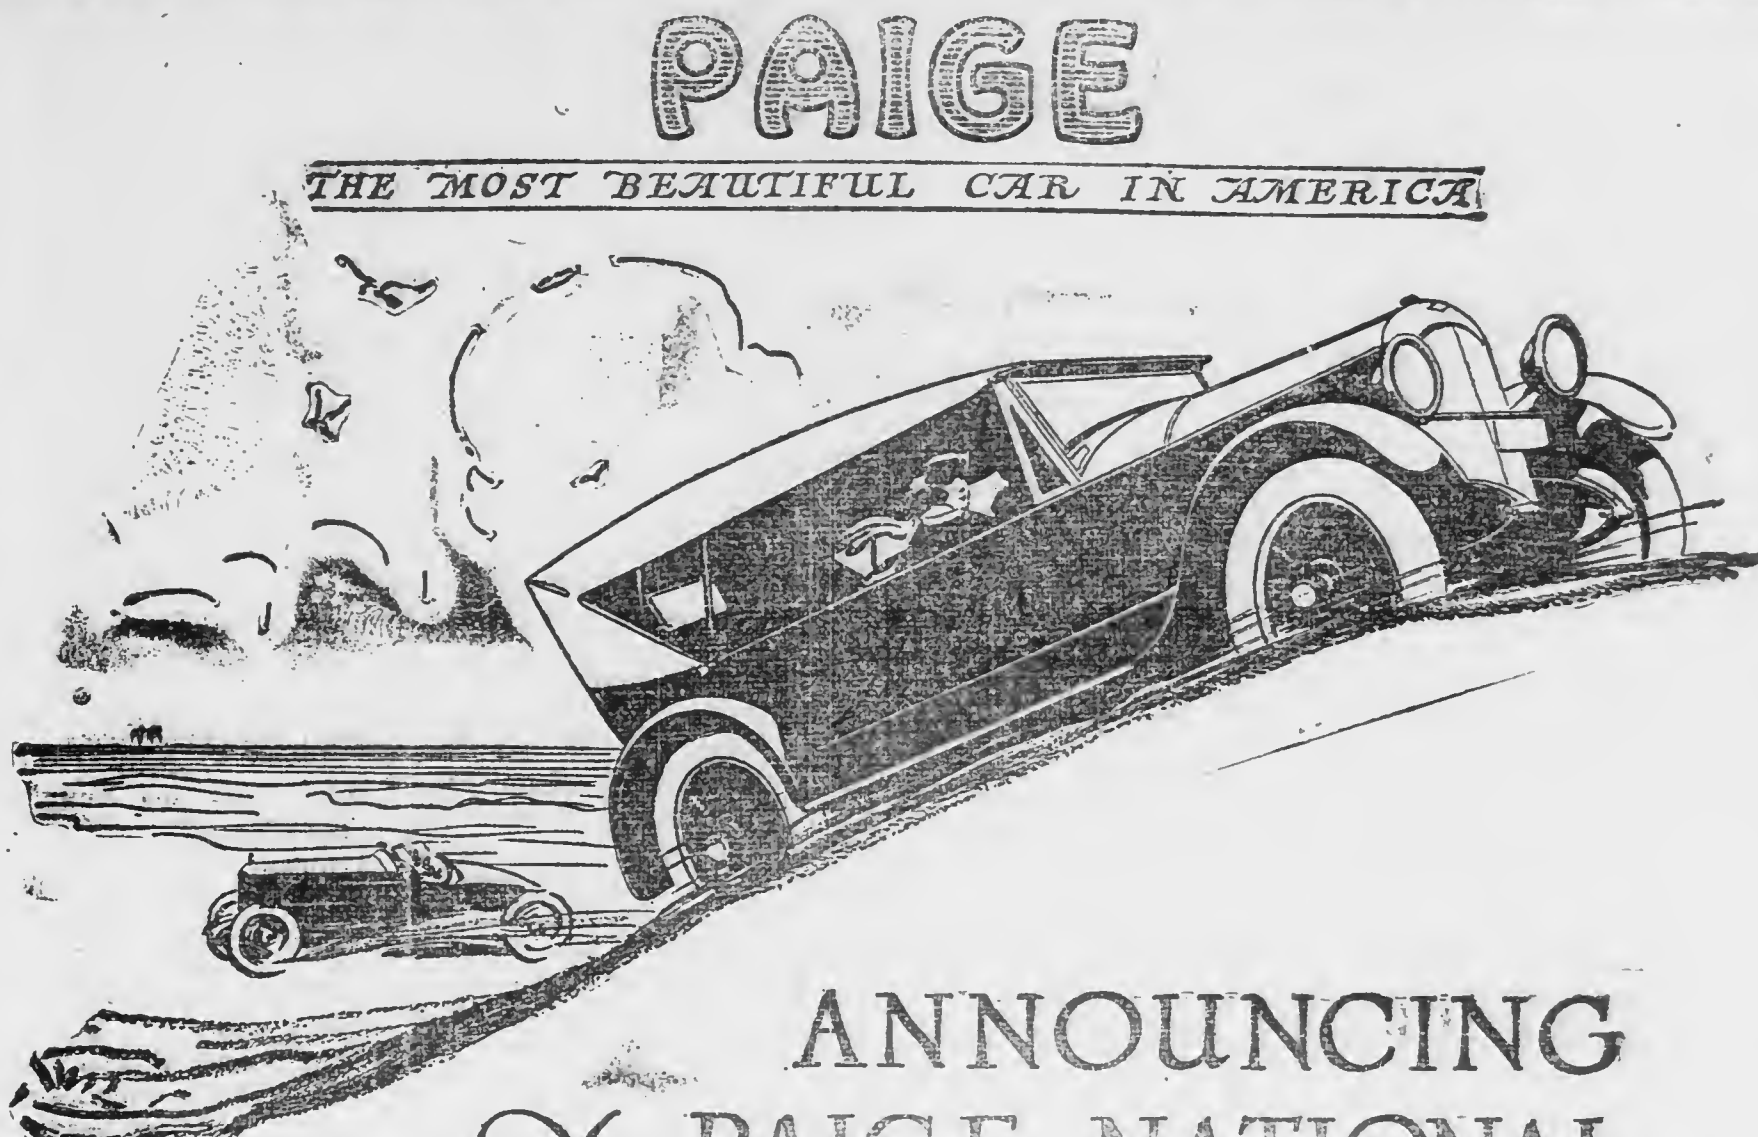

Backed by Kentucky College of Agriculture and the United States Department of Agriculture, the Kentucky Pure Bred Livestock Association and the Louisville Livestock Exchange have entered in the most comprehensive campaign ever undertaken in this state to promote the breeding of better and more livestock. To further the movement the Association and the Exchange at large expense have planned the widest possible publicity.

Three great sales of pure bred and grade animals have been planned to be held at the Bourbon Stock Yards. Neither as Association nor the Exchange will derive one cent of profit from these sales. The animals will be sold at auction to the farmers and it is expected that the range of prices will permit of the selection of these animals by those interested at a cost well within the means of those in the most moderate circumstances.

The first of these sales will be Better Sire Sale of Pure Bred Registered Bulls, 200 in number which will be auctioned at the stock yards June 2. Some of the finest bulls in the state have been offered for this sale. Trading arrangements have been provided for where Livestock Exchange representatives in the field will buy scrub cattle from such groups possible.

ANNOUNCING The PAIGE NATIONAL DEMONSTRATION WEEK

For one week—commencing Monday, April 4th.—our Dealers in every section of the nation will conduct a special series of demonstrations with the complete line of Paige cars.

Our "Daytona 6-66" model now holds the world's stock car record for speed. It will be the purpose of Demonstration Week to prove that any Paige car—in the hands of an unprofessional driver—is indeed Master of the Highway.

No other stock car has ever equalled our own speed record of 102.8 miles per hour. No other car, we are confident, can defeat a Paige in the milder tests of general demonstration work.

By proving itself the fastest car, the Paige 6-66 has revealed qualities of endurance and strength that are beyond dispute. World's championship form is a guarantee of all round efficiency—the best guarantee that the sporting world affords.

But these are facts that we want you to establish for yourself, and

Demonstration Week offers an unrivaled opportunity. You have but to get in touch with our Dealer and he will book you for a ride that will prove finally convincing.

Then, with an actual record of the tests, you will be in position to compare the Paige 6-66 with any other motor car—at any price—on the American market.

You will also be able to determine whether the New Series "Glenbrook Six-44" is or is not the greatest dollar for dollar value in the light six field.

Surely no man could ask for a fairer or more sportsmanlike proposition.

Whether you contemplate buying a motor car or not, we very cordially invite you to ride with Paige during the coming week. It will prove a revelation, we believe—and a liberal education in strictly modern engineering.

Mrs. Cal Chasteen, of the Boone section of Rockcastle county, is in the Gibson hospital here, as a result of being accidentally shot by her five-year-old son. The little fellow was handing a pistol to his mother to put away, when it was discharged. The bullet penetrated a hip, and made a severe wound. Mrs. Chasteen was rushed here and Dr. Gibson extracted the bullet. She is now resting as easy as possible, and it is understood is on a fair way to recovery, if no unforeseen complications set up.

Suggests Changes in

State's Arson Law

Louisville, Ky., April 2.—Recommendation that the arson law be amended by the next legislature was made in the final report of the March grand jury submitted here today. The jury's report concerning recent fires in Louisville recommended that the fire marshal and his deputies, being given the authority of the law,

should exercise that authority by doing "their full duty, which should prove very effective as we think that a few heavy fines would have a most salutary effect. In this connection, we would suggest that in our humble opinion believe much good could be accomplished if the next legislature would amend the present arson law which in its present shape is very ineffectual."

SHORTHORN SHOW AT COLUMBIA, TENN

No announcement in recent years has occasioned so general and sincere interest among southern cattle men as that recently made of the holding on May 17 and 18, probably at Columbia, Tenn., of the Southern Shorthorn Exhibition and Sale. One hundred and twenty-five head of the highest class purebred Shorthorn cattle the entire south can produce will be shown in a contest for cash premiums amounting to \$4,000, and every animal in the show will be offered for sale by auction to the breeders of the south following the conclusion of the show. The cattle will be consigned by leading breeders in the states of Kentucky, Tennessee, North Carolina, Georgia, Alabama and Mississippi.

The event will be similar in character to the National Shorthorn Congress, Show and Sale, held in Chicago annually in February and in like manner will afford southern breeders an opportunity to exhibit for prizes and those who wish to purchase to secure their requirements at reasonable prices.

Undoubtedly this undertaking is worthy of the unalloyed support of every southerner who is interested in the highest development of the cattle industry in the south, and such support is particularly essential, as its complete success will determine future similar annual events.

The Nashville, Chattanooga & St. Louis railway and the American Shorthorn Breeders' Association are co-operating in the promotion and conduct of the exhibit and sale, and E. W. Harding, chief executive of the association, will officiate as judge of the show.

MARKETGRAM

(From U. S. Bureau of Markets) Grain

Market unsettled and prices fluctuated rapidly within a narrow range the past week. Sentiment mostly bearish, but there was buying on the breaks. Favorable crop reports, lack of export demands, reports of damage to growing crop by freezing weather and pit conditions were the principal factors influencing the prices. On the 30th all grain had very heavy undertone. Offering of corn to arrive showed fair increase; corn products industries out of cash market. Wheat crop reports favorable and indicate little or no damage by recent freeze. On the 30th 600,000 bushels wheat sold for export at Gulf, but generally demand slow and Italy out of market for season. In Chicago cash market No. 2 red winter wheat 14 1-2 to 14 3-4c over Chicago May, No. 2 hard same premium; No. 3 mixed corn 5 1-4 to 6c under May, No. 3 yellow 5-5 1-2 under. For the week Chicago wheat down 1 1-2c at \$1.39 7-8, May corn 2 5-8c at 61 3-8. Minneapolis May wheat down 2c at \$1.34 1-4, Kansas City May 3c at \$1.32, Winnipeg May 3-4 at \$1.76. Minneapolis flour demand dull. Kansas City milling demand good, export demand dull; No. 2 hard wheat 16c over Kansas City May.

Livestocks and Meats

Prices of practically all classes of livestock at Chicago declined the past week. Hogs ranged 50c to 75c lower; beef steers lost 25 to 40c, butcher cows and heifers generally 25c; feeder steers 50c to 60c; veal calves 50c to \$2 per 100 pounds; fat lambs 50c to \$1; feeding lambs steady to a shade higher; fat ewes up 25c March 30. Chicago prices, hogs bulk of sales, \$8.60-\$9.75, medium and good beef steers \$8-\$9.85, butcher cows and heifers \$4.75-\$9.25; feeder steers \$7.25-\$8.75; light and medium weight veal calves \$7-\$9.50; fat lambs \$7.50-\$10; feeding lambs \$7.50-\$9.25; yearlings \$7-\$9; fat ewes \$5-\$6.75.

The Tartars Had Literary Tastes

The lowly and uncultured Tartars—when books fell into their possession—ate them to acquire the knowledge contained therein. They doubtless suffered indigestion. At least, they weren't overlooking any bets.

There are mistakes both of commission and omission. Better, by far, to be satisfied that you have done your best and endure indigestion, than overlook real opportunities and feel pangs of unavailing regrets.
